

Public Produce Garden Newsletter July 28, 2015

First off, a big thank you to those who have been putting hours in at the garden. The garden is looking beautiful and this really wouldn't be possible without you! If you haven't been by in a while please do stop and check it out.

There are some exciting events coming up. Be sure to mark your calendars for August 12th, from 12:15 - 1pm Jewels Oshun of Mountain Pose Yoga will be leading a lunch time yoga session. What better way to spend your lunch break than yoga in the garden! This session will be appropriate for all levels, whether brand new to yoga or a seasoned professional. If you have a mat bring it if not there will be extras.

On August 25th from 6:30 to 8 we will be hosting a weed workshop with the East Kootenay Invasive Plant Council. Learn how to identify, manage, and prevent common garden weeds.

Finally, we need your help! We want to put together a short video for a BC Hydro Community Champions Grant but don't have much expertise. If you like making/directing/editing videos, or want to be in front of the screen please email us. We will really need some help on this one but \$10 000 seems very enticing!

Ready to Harvest:

Radishes, lettuce and greens, herbs, peas, zucchini, jostaberries, raspberries, strawberries
